

DECORATIONS

Finely cast plaster decorations and wall or ceiling enrichments can be used in literally hundreds of ways to provide the most charming of finishes to any project. Many of the designs featured were originally created for use in fine houses and museums and all are now available for direct application to your project.

Our range includes more than 50 different items from simple and elaborate ceiling and wall enrichments, to delicate plaques and many special styles of rose. We have also included a choice of pedestals and a single bust to challenge your imagination. If you have a particular enrichment in mind, and cannot find it here, please ask us to help.
